

CONTENTS

1. Synthesis and Processing

Nanomaterials Production by Soft Chemistry M.-P. Pilani	1
Hydrothermal Synthesis of Nanomaterials O. Schäf, H. Ghobarkar, and P. Knauth	23
EHDA in Particle Production T. Ciach, K.B. Geerse, and J.C.M. Marijnissen	43
Dynamic Compaction of Nano-Structured Ceramics M.J.G. Jak	55

2. Properties and Applications

Structural and Electrical Properties of Nanostructured and Coarse Manganese Spinel J. Molenda and J. Marzec	73
Metal-Polymer Nanocomposites: Formation and Properties near the Percolation Threshold S. Zavyalov, A.Timofeev, A.Pivkina, and J.Schoonman	97
Nanocrystalline Layers of CdSe Produced by Means of a Multilayer Approach D. Nesheva, Z. Levi, I. Bineva, and H. Hofmeister	115
X-Ray Diffraction from Nanostructured Materials J. Pielaszek	127
High Resolution Electron Microscopy of Surfaces and Interfaces H. W. Zandbergen	145
Nanoelectronics G. Allan, C. Delerue, C. Krzeminski, and M. Lannoo	161
Index	185
