

Les P'tites
PLANÈTES

Fleur Daugey
Chiara Dattola

The background is a deep, textured blue. Scattered across it are numerous stylized stars. Each star has a central orange circle with a white ring. From this center, many thin, white lines radiate outwards, resembling star rays. Interspersed among these white lines are several longer, thicker rays in shades of yellow and orange, giving the stars a multi-colored, glowing appearance. The stars are of various sizes and orientations, creating a dynamic and sparkling effect.

La lune brille,
les étoiles scintillent...
Le soir n'est pas si noir.

Boule étincelante
ou fin croissant,

de nuit en nuit,
la lune change de visage.
