## Part I Microstructure and Fabric

---

<b>Influence of Relative Density and Clay Fraction on Soils Collapse</b> <i>Khelifa Abbeche, Farid Hammoud, and Tahar Ayadat</i> . . . . .	3
<b>Microstructure Features in the Behaviour of Engineered Barriers for Nuclear Waste Disposal</b> <i>Pierre Delage</i> . . . . .	11
<b>Microstructure of Gypsiferous Crust and Its Importance to Unsaturated Soil Behaviour</b> <i>Ghazi Mokdad, Omran Alshihabi, and Leo Stroosnijder</i> . . . . .	33
<b>Fabric Changes in Compacted London Clay Due to Variations in Applied Stress and Suction</b> <i>Rafael Monroy, Lidija Zdravkovic, and Andrew Ridley</i> . . . . .	41
<b>Microstructure of a Lime Stabilised Compacted Silt</b> <i>Giacomo Russo, Sebastiana Dal Vecchio, and Giuseppe Mascolo</i> . . . . .	49

---

## Part II Measuring Suction

---

<b>Errors in Total Suction Measurements</b> <i>Setianto Samingan Agus and Tom Schanz</i> . . . . .	59
<b>Application of a Dew Point Method to Obtain the Soil Water Characteristic</b> <i>Gaylon S. Campbell, David M. Smith, and Brody L. Teare</i> . . . . .	71

**A Comparative Study of Soil Suction Measurement Using Two Different High-Range Psychrometers**  
*Rafaela Cardoso, Enrique Romero, Analice Lima, and Alessio Ferrari* . . 79

**Determination of the Soil Water Retention Curve with Tensiometers**  
*Sérgio Lourenço, Domenico Gallipoli, David Toll, Fred Evans, and Gabriela Medero* . . . . . 95

**Tensiometer Development for High Suction Analysis in Laboratory Lysimeters**  
*Cláudio Fernando Mahler and Abdoul Aziz Diene* . . . . . 103

**Part III Strength and Dilatancy**

**Dilatancy of Coarse Granular Aggregates**  
*Eduardo E. Alonso, Enrique F. Ortega Iturralde, and Enrique E. Romero* . . . . . 119

**A Laboratory Investigation into the Effect of Water Content on the CBR of a Subgrade soil**  
*Samuel Innocent Kofi Ampadu* . . . . . 137

**Shear Strength Affected by Suction Tension in Unsaturated Fine Grained Soils?**  
*Carola Bönsch and Christof Lempp* . . . . . 145

**Shear Strength Behaviour of Unsaturated Silty Soil**  
*Ali R. Estabragh and Akbar A. Javadi* . . . . . 153

**Experimental Investigation on the Time Dependent Behaviour of a Multiphase Chalk**  
*Grégoire Priol, Vincenzo De Gennaro, Pierre Delage, and Thibaut Servant* . . . . . 161

**Testing Unsaturated Soil for Plane Strain Conditions: A New Double Wall Biaxial Device**  
*Tom Schanz and Jamal Alabdullah* . . . . . 169

**Influence of State Variables on the Shear Behaviour of an Unsaturated Clay**  
*Viktoria Schwarz, Andreas Becker, and Christos Vrettos* . . . . . 179

**Effect of Capillary and Cemented Bonds on the Strength of Unsaturated Sands**  
*Fabien Soulié, Moulay Saïd El Youssoufi, Jean-Yves Delenne, and Christian Saix* . . . . . 185

<b>Determining the Shear Strength of Unsaturated Silt</b> <i>Shulin Sun and Huifang Xu</i> .....	195
<b>Factors Affecting Tensile Strength Measurement and Modified Tensile Strength Measuring Apparatus for Soil</b> <i>Surendra Bahadur Tamrakar, Toshiyuki Mitachi, and Yasuo Toyosawa</i> ..	207
<b>The Tensile Strength of Compacted Clays as Affected by Suction and Soil Structure</b> <i>Rainer M. Zeh and Karl Josef Witt</i> .....	219

---

#### Part IV Temperature Effects

---

<b>Modified Isochoric Cell for Temperature Controlled Swelling Pressure Tests</b> <i>Yulian Firmana Arifin and Tom Schanz</i> .....	229
<b>Some Aspects of the Effect of the Temperature on the Behaviour of Unsaturated Sandy Clay</b> <i>Moulay Smaïne Ghembaza, Said Taïbi, and Jean-Marie Fleureau</i> .....	243
<b>Influence of Temperature on the Water Retention Curve of Soils. Modelling and Experiments</b> <i>Simon Salager, Moulay Saïd El Youssoufi, and Christian Saix</i> .....	251
<b>Thermo-Hydro-Mechanical Behaviour of Compacted Bentonite</b> <i>Abbass Tavallali, Anh-Minh Tang, and Yu-Jun Cui</i> .....	259
<b>Retention Curves of Two Bentonites at High Temperature</b> <i>María Victoria Villar and Roberto Gómez-Espina</i> .....	267

---

#### Part V Volumetric Behaviour – Expansive Materials

---

<b>Experimental Study on Shrinkage Behaviour and Prediction of Shrinkage Magnitudes of Residual Soils</b> <i>Sarita Dhawan, Anil Kumar Mishra, and Sudhakar M. Rao</i> .....	277
<b>Assessment of Swelling Deformation of Unsaturated Kaolinite Clay</b> <i>Markus Dobrowolsky and Christos Vrettos</i> .....	285
<b>Suction and Collapse of Lumpy Spoilheaps in Northwestern Bohemia</b> <i>Vladislava Herbstová, Jan Boháč, and Ivo Herle</i> .....	293

<b>Oedometer Creep Tests of a Partially Saturated Kaolinite Clay</b>	
<i>Piotr Kierzkowski</i> .....	301
<b>Analysis of the Expansive Clay Hydration under Low Hydraulic Gradient</b>	
<i>Marcelo Sánchez, María Victoria Villar, Antonio Lloret, and Antonio Gens</i> .....	309
<b>Moisture Effects on Argillaceous Rocks</b>	
<i>Chun-Liang Zhang and Tilmann Rothfuchs</i> .....	319
<hr/>	
<b>Part VI Retention Behaviour</b>	
<hr/>	
<b>Results from Suction Controlled Laboratory Tests on Unsaturated Bentonite – Verification of a Model</b>	
<i>Ann Dueck</i> .....	329
<b>Variation of Degree of Saturation in Unsaturated Silty Soil</b>	
<i>Ali R. Estabragh and Akbar A. Javadi</i> .....	337
<b>Mechanical Behaviour of Compacted Scaly Clay During Cyclic Controlled-Suction Testing</b>	
<i>Camillo Airò Farulla, Alessio Ferrari, and Enrique Romero</i> .....	345
<b>Prediction of Soil–Water Characteristic Curve Based on Soil Index Properties</b>	
<i>Navid Ganjian, Yadollah Pashang Pisheh, and Seyed Majdeddin Mir Mohammad Hosseini</i> .....	355
<b>Water Balance and Effectiveness of Mineral Landfill Covers – Results of Large Lysimeter Test-Fields</b>	
<i>Wolf Ulrich Henken-Mellies</i> .....	369
<b>A Retention Curve Prediction for Unsaturated Clay Soils</b>	
<i>Mehrez Jamei, H. Guiras, and N. Mokni</i> .....	377
<b>Unsaturated-Zone Leaching and Saturated-Zone Mixing Model in Heterogeneous Layers</b>	
<i>Samuel S. Lee</i> .....	387
<b>Prediction of SWCC for Coarse Soils Considering Pore Size Changes</b>	
<i>Xu Li and Limin Zhang</i> .....	401

**The Influence of the Pore Fluid on Desiccation of a Deformable Porous Material**  
*Hervé Péron, Liangbo Hu, Tomasz Hueckel, and Lyesse Laloui* . . . . . 413

**Determination of the Soil Water Retention Curve and the Unsaturated Hydraulic Conductivity from the Particle Size Distribution**  
*Alexander Scheuermann and Andreas Bieberstein* . . . . . 421

---

**Part VII Field Applications**

---

**Earthquake-Induced Mudflow Mechanism from a Viewpoint of Unsaturated Soil Dynamics**  
*Motoki Kazama and Toshiyasu Unno* . . . . . 437

**Plate-Load Tests on an Unsaturated Lean Clay**  
*Juan Carlos Rojas, Luis Mauricio Salinas, and Claudia Sejas* . . . . . 445

**Selfsealing Barriers of Clay/Mineral Mixtures. The SB Project at the Mont Terri Rock Laboratory**  
*Tilmann Rothfuchs, Rüdiger Miehe, Norbert Jockwer, and Chun-Liang Zhang* . . . . . 453

**Preferential Water Movement in Homogeneous Soils**  
*Alexander Scheuermann and Andreas Bieberstein* . . . . . 461

**Compaction Properties of Agricultural Soils**  
*Anh-Minh Tang, Yu-Jun Cui, Javad Eslami, and Pauline Défossez-Berthoud* . . . . . 475

**Bearing Capacity of Model Footings in Unsaturated Soils**  
*Sai K. Vanapalli and Fathi M.O. Mohamed* . . . . . 483

**Influence of Soil Suction on Trench Stability**  
*Valerie Whenham, Monika De Vos, Christian Legrand, Robert Charlier, Jan Maertens, and Jean-Claude Verbrugge* . . . . . 495

**Index** . . . . . 503
